Running the project

Video Guide: https://youtu.be/hcHg4f_SUtE

1:

Download node.js from the following link: https://nodejs.org/en/download/

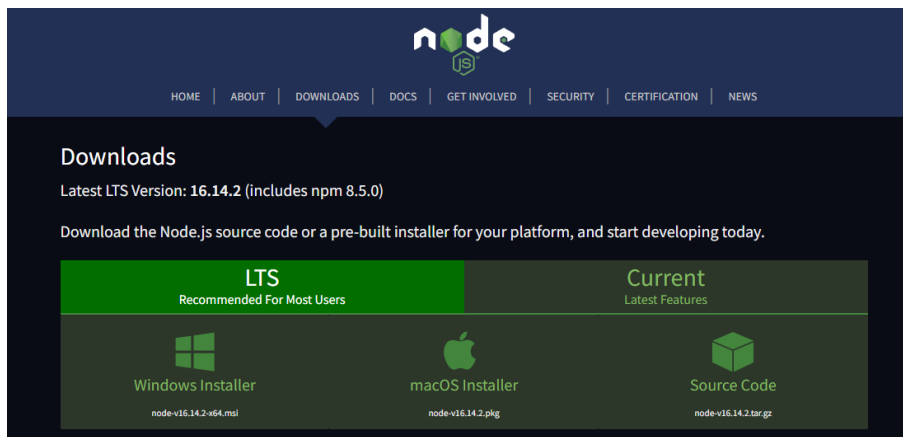

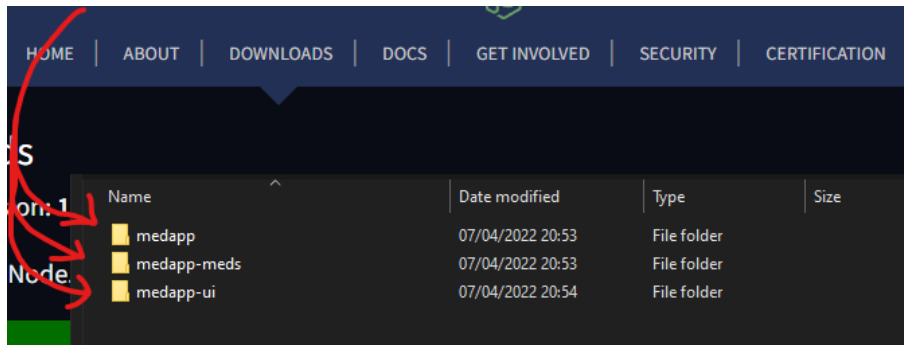

2:

Extract the files zip folder to a new empty folder:

3:

Open a command terminal in each of the folders locations (medapp, medapp-ui, medapp-meds):

4:

Run the following command in each command terminal window (npm install):

```
Microsoft Windows [Version 10.0.19043.1586]
(c) Microsoft Corporation. All rights reserved.

D:\college\Year 4\Final year\compTest\files\medapp>npm install
```
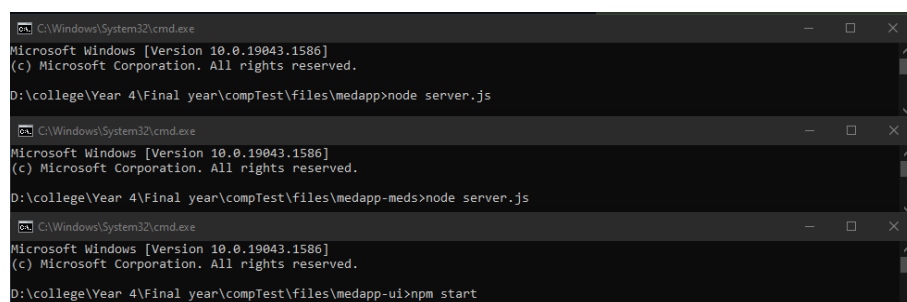

5:

Run the following commands in the terminals respectively.

Medapp: (node server.js)

Medapp-meds: (node server.js)

Medapp-ui: (npm start)

In order from top to bottom to ensure there are no errors. After a while the application will start up in the default browser.
